\$2.00 A YEAR IN ADVANCE

HESKETH NEWS

On Monday November 25th the second daughter of Mr. and Mrs. Geo. Larochelle of Hesketh was married to the well-known boxer, Kid Holland, of Drumheller, at St. Anthony's church. Only immediate relatives were present at the ceremony. The bride was charmingly attired in a gown of soft grey material. The happy young couple left on a short honeymoon and returning will reside in Drumheller. We wish them luck. (Hesketh).

J. C. Chittick, Chas. Morley and E. Church passed through town Monday on their way to Calgary.

The Hesketh Community Players Miss Tobin and A.G.E. Vooy.

HOCKEY CLUB IS FORMED IN CARBON

At a general meeting of all those interested in hockey in Carbon, which was held last week in the Elk's hall, it was decided to form a hockey club

are presenting a play "Deacon Slips," in the Hesketh community hall on Wednesday, December 18. The play is a comedy-drama with the following local people comprising the cast.

Mr. and Mrs. Geo. Sterling; George Appleyard; Ross Thorburn; Richard Appleyard; G. Price; Mrs. Hunter;

in Carbon and the following were the officers elected for the season:

President, G. G. Peters.
Secretary-Treasurer, A. R. Lynn.
Executive Committee, Messrs. J. C. Spence, J. J. Greenan and R. J. Fairbairn.

Sam Leiske was elected manager of a team for the coming season.

A meeting of the newly formed hockey club in Carbon, was held in the Elk's hall on Sunday afternoon and a good turn out of players was present. The President, G. G. Peters, occupied the chair and owing to the absence of the secretary, R. Lynn, E.

THE COMMUNITY PLAYERS PRESENT

"STAR BRIGHT"

A THREE-ACT COMEDY-DRAMA

IN ELK'S HALL, CARBON, ON FRIDAY, DECEMBER 6, 1929

— THE CAST —

LEMUEL BRIGHT	J. A. MacDONALD
WILLIAM WALKER SMITH	R. LYNN
WALTER WILLIAMS SMYTHE	WM. EDWARDS
ARTHUR PULVER (WESTCOTT)	E. J. ROULEAU
JAKE HOOVER	STAN CARNEY
PARSON BRIGHT	JAS. TAYLOR
HONOR BRIGHT	MISS DAPHNE NASH
STAR BRIGHT (Alias Madame Ormand)	MRS. L.G. MCQUADE
SUNSHINE BRIGHT	MISS KATHLEEN WATKINS
BIRD DENTON	MISS KATE RAMSAY
MELINDA BENDY	MRS. G. G. PETERS

UNDER THE DIRECTION OF G. G. PETERS

ACT I—GARDEN AT THE BRIGHT HOME. LATE IN THE SUMMER. MORNING.

ACT II—SITTING ROOM IN THE BRIGHT HOME. AFTERNOON OF THE SAME DAY.

ACT III—MADAME ORMAND'S ROOM AT THE BRIGHT HOME. TWO WEEKS LATER.

ACT I—Jake makes a morning call. Bird tries to cure her disappointment by making herself useful. Smith receives a royal welcome all around the family circle. Sunshine and Bird exchange confidences. Smith solicits Bird's assistance. Westcott offers Sunshine a chance. Smith meets Sunshine, "I'm on the job!"

ACT II—The wickedness of the world. A game of checkers with no prize at stake. Bird and Mrs. Bright discuss Westcott. Ethelbert Ferdinand Delaney's picture gives Bird an unpleasant shock. A faded dress with old-time memories. Smith confesses a fancy for Sunshine and furnishes a program of "canned music" with varying effect. "That voice!" Jake practices a little to strengthen his muscle. Westcott plays a trump card and the game seems to turn in his favor. Bird holds the joker and the game is saved. "Don't you folks want some light?" "You shall marry her!"

ACT III, Scene I—Sunshine hears the true story of the lost Star. Madame Ormand selects her room and wins Sunshine's confidence. "The picture turned toward the wall."

ACT III, Scene II (or later)—"I'm here just in time for the ceremony." Smith and Smythe have a clash and Ethelbert Ferdinand Delaney is unmasked. "Cremating a has-been." Melinda and Jake arrive at last. Westcott refuses to be a quitter. "Do your worst, Madam! I defy you!" The draping of the wedding veil serves to reveal the bride's heart. The divine purpose in a great son-in-law. "This marriage cannot be. I forbid it!" Smith explains and Star comes into her own. College once more in sight for Sunshine. Bird introduces her real lover and all sunny dreams come true at once. Jake strikes a bargain. "Come on, 'Lindy'!"

HUNDREDS OF AMAZING BARGAINS

W. A. BRAISHER

LITTLE ITEMS OF LOCAL INTEREST

A tea, sale of work and home cooking will be held by the members of the Carbon W.A. in the Farmers' Exchange hall on Saturday afternoon, November 30th.

Miss Phyllis James and James Taylor attended the Sunday School convention which was held at Drumheller last Thursday.

—Don't forget that there will be a dance in the Farmers' Exchange hall on Saturday night immediately following the picture show.

Miss A. Ramsay arrived home from Calgary last Sunday and will remain here till after Christmas.

Mrs. H. A. Evans and daughter Audry were Calgary visitors last week.

Sam Dattner has closed his store in Carbon and an auction sale of the remnants was held on Tuesday of this week. Mr. Dattner is opening up a new store at Black Diamond.

S. F. Torrance went into Calgary on Sunday and the first of the week had an operation to remove his tonsils.

W. Leitch is out after his usual load of Christmas trees this week.

Mrs. Gordon Livingstone returned Sunday evening after spending the past week visiting with her parents at Olds.

Dan Stacy arrived in Carbon last Sunday and expects to spend a few days in town.

Born on Thursday, November 14, to Mr. and Mrs. Geo. W. McNeill of Calgary, a son.

Mr. J. Smith of Calgary is in town this week and is conducting a sale for W. A. Braisher, the sale to commence on Saturday of this week. See the posters.

—Have you purchased your tickets for the play "Star Bright," which is playing in the Elk's hall next Friday night.

Mrs. Lammie has opened a new beauty shop in L.G. CeQuade's building next to the Drug Store.

Dan Stacy and J. Smith were business visitors to Drumheller on Tuesday.

Nick Snithur is holding an auction sale of his household effects, etc. at his place near the Elk's Hall on Saturday, December 14th.

J. A. MacDonald, Geo. Trepanier, I. Gutman, Stan Carney and Lawrence Poxon left Tuesday night to attend a meeting of the Elk's Lodge at Acre. We understand that the roads were quite slippery and the party spent the better part of two hours in the ditch near Grainger before returning to Carbon without having arrived at their destination.

Mr. F. Weisse and Family have moved into the Castiglione's house on the Island.

Harry Jealous recently completed his inspection of the various yards of the Crown Lumber Co. in this vicinity.

WORLD HAPPENINGS BRIEFLY TOLD

Dr. Isai Sylvestre, said to be the oldest practising physician in Canada, died at his home in Sorel, Quebec, at the age of 83. He has been practising medicine since 1867.

The trip to the British West Indies of their Excellencies, the Governor-General and Lady Willingdon, while designed primarily as a rest and holiday, assumes also the aspect of a good-will journey.

Miss May Thornley, one of the best known temperance workers in Canada, is dead at the age of 71. She had been several times president of the Dominion Women's Christian Temperance Union.

The French government has sent its official acceptance to the invitation of the British government to participate in the five-power naval conference opening in London on January 21.

Leaders of the New Turkey have commenced to start observance of the Sabbath on the Christian Sunday instead of Friday, thus severing another of the ties which bind that nation to the Moslem world.

Honoring Dr. Augusta Stowe Gullen, the first woman to graduate in medicine from a Canadian University, the Medical Alumnae of the University of Toronto and other women physicians have had a portrait painted of her.

Long Standing Asthma. Many have suffered so long from asthma and have tried so many so-called remedies that they think there is no real help for them. They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases once as desperate as their own. Even in long-neglected cases this famous preparation brings prompt help.

Meaning Of Totem Poles

Used By Indians As Monument Of Important Events

Boy Scouts and Girl Guides use the word totem without, perhaps, quite realizing its origin and meaning. Totem poles are used by many native tribes in various parts of the world as monuments of important events and tombstones of the dead. To the Alaskan Indians, however, the tribal totem stands for the animal ancestor from whom he believes his tribe is descended, and it is connected with all his religious and social beliefs.

Persian Balm is the one true family aid for skin health and beauty. Aids the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and caresses the skin and creates complexions of surpassing loveliness.

Substitute For Tunnel

A vast double dam across the English Channel between Deal, England, and Calais, France, carrying two railway tracks, an automobile road and providing a ship canal, has been suggested by Jules Jaeger, Swiss engineer, as a substitute for the proposed underground channel tunnel.

HEADACHE RELIEVED QUICKLY

This Purely Vegetable Pill quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your whole system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope, they are depressing and harmful. All Druggists 25c and 75c red pkgs. **CARTER'S HEAD PILLS**

Big Mineral Discovery

Deposit Of Copper and Nickel Ore Attracting Attention To Saskatchewan

The whisper of a great discovery has gone out all across the Canadian west, and the representatives of mining organizations large and small are endeavoring to ascertain the spot in northern Saskatchewan where the Dominion Explorers, Ltd., are reported to have made what appears to be the mineral discovery of the current year.

Members of the Dominion Explorers Organization have been brought in from different areas and have been flying away in one fixed direction, and the indications are the discoverers will have themselves all fortified in regard to holdings in the new district before rival claim-stakers may appear.

Dominion Explorers being a Lindsey organization, has had the experience of dealing with big mineral deposits. Sherritt-Gordon has been a case in point where the mineral bearing fractures extend possibly two to three miles in length. In regard to the new discovery in northern Saskatchewan, while officials have remained reticent, yet the size of the organization has rendered it difficult to prevent a certain amount of detail filtering out. Outstanding features now definitely known are the big width of the deposit and the particularly great length—the surface being a close duplicate of Sherritt-Gordon—with the exception that whereas Sherritt-Gordon is copper and zinc, the deposit located by Dominion Explorers is copper and nickel.

Samples of the ore from the new discovery have been examined. These samples having been taken from surface where gossan lies heavy and where work has not yet reached entirely below the leached zone are extremely impressive and something which would justify the discoverers in rounding out for themselves a holding of at least 15 to 20 square miles.

The Power Of Softness

Snow Bank Would Stop Bullet Which Would Penetrate Solid Substance

A bank of snow six feet thick will stop bullet shot at the distance of fifty yards. The bullet will not penetrate that downy bank of snow, but it will go through the solid embankment when fired at three times the distance. The bullet shatters the steel, penetrates the solid bank; but the soft feathery snow has a way all its own, and it takes in that murderous lead and loves it, and, as it were, soothes it.

Wonderful For Indigestion!

When your stomach feels bad; when Gas, Boursiness, Nausea or after-eating pains make you feel miserable—a single dose of pure Bisulcated Magnesia will bring almost instant Relief!

For Indigestion, the prompt effectiveness of **BISULCATED MAGNESIA** is really wonderful. Even the most obstinate cases quickly respond. Pleasant and inexpensive to use. Ask your druggist.

May Have Started Something

Nebraska Fox Farmers Suing Airplane Company For Killing Foxes With Noise

Mail planes roared a few hundred feet over a Nebraska fox farm. Down below, scores of foxes cowered in terror. Fifty-six of them died—and their owners are suing an aeroplane company for damages.

The outcome of the case will be watched with interest, because if the racket of airplanes kills foxes, and their owners can recover damages, there will be developments. Human beings are going to start collecting damages for nervous injuries caused by various modern noises.

Most of the noise caused by aeroplanes, and other things, is unnecessary. If it kills foxes, it must have a harmful effect on the health of citizens, who are, after all, almost as valuable. We are not "picking on" the aeroplane in particular; it is no worse than a dozen other noise-makers.

Some time or other, civilization must tackle the noise problem—and solve it. Just now seems as good a time as any to start.—Vancouver Sun.

If love is blind, jealousy is an eye-opener.

Minard's Liniment relieves stiffness.

PEPS

Wheat Pool's Operations

Now Controls 55 Per Cent. Of the Grown In Western Canada

Although in operation for a period of only five years, the Canadian Wheat Pool controls 55 per cent. of the crop grown in the prairie provinces of Canada—Manitoba, Saskatchewan and Alberta.

It owns and operates 1,435 country elevators out of a total of 5,042 in the prairie provinces and, in addition, owns a large percentage of the large terminal elevators at Fort William, Port Arthur, Vancouver, Prince Rupert and other points. The Pool has taken a leading part in helping to open up markets for Canadian grain in China and Japan and other countries, and has placed its handlings in over 60 different ports in Europe.

BABY'S OWN TABLETS A HELP TO MOTHERS

There is no other medicine of as great a help to young mothers as Baby's Own Tablets. These Tablets are a mild but thorough laxative which regulate the bowels; sweeten the stomach; correct constipation and indigestion; break up colds and simple fevers and make the cutting of teeth painless.

Mothers who keep a box of the Tablets in the house always feel safe from the sudden attacks of illness that seize their little ones. If Baby's Own Tablets are given on the first sign of illness the baby will soon be right again. Concerning the Tablets Mrs. B. G. Carver, Lyndale, P. E. I. writes: "I always keep Baby's Own Tablets in the house and find them a wonderful help in keeping my baby well."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Turkeys

High-standards for turkeys are being maintained by the Alberta Bronze Turkey Association; it was reported at a meeting of the Association in Calgary the other day. The average weight of turkeys before the advent of the Association was 10 pounds. Now it is 12 pounds.

A perfect violin made by a Peterborough, Ontario, artist, is 4 ins. long, weighs a quarter of an ounce, and has ninety-nine separate parts.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

The 1920 United States census shows that less than one in 2,000 persons in this country are blind.

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—Mrs. MILTON McMULLEN, Vanessa, Ontario.

SUNDAY SCHOOL LESSON

December 1

THE CHRISTIAN HOME IN A MODERN WORLD

Golden Text: "Honor thy father and mother."—Ephesians 6:2.

Lesson: Deuteronomy 6: 3-9; Matthew 19:3-9; Luke 2:40-52; 24:28-32; Ephesians 6:1-9; 2 Timothy 1:3-5; 3:14-15.

Explanations and Comments

The Development Of the Boy Jesus, verse 40.—Like every one who has ever lived, Jesus entered the world as a helpless infant, and like all normal children, His powers developed gradually. As a child He grew, and became strong, filled with wisdom; and the grace of God was upon Him.

"O that I may grow! What though Time cuts furrows in my face, My heart may ever add grace unto grace, Graces with added days still keeping pace, O that I may grow!"

—Maltbie D. Babcock.

Jesus At Twelve Years Of Age, verses 41-50.—When Jesus was twelve years of age his parents took Him to Jerusalem for the first time to attend the Passover. Three times in this chapter (verses 41, 42 and 48), Joseph is referred to as the parent, or father, of Jesus. Dr. Garvie explains that "Joseph is rightly described as one of Jesus' parents, for in the home he provided for and protected Him, filled a parent's place, and played a parent's part. To him also God had committed a trust and task." The Passover began on the fifteenth of Nisan, the first month, and lasted several days. It was a journey of eighty miles from Nazareth, their home in Lower Galilee, to Jerusalem.

When Joseph and Mary started home again, the Boy, unknown to them, tarried behind in Jerusalem. They went a day's journey towards Nazareth before they missed Him; for they had supposed Him with kinsfolk or acquaintances in the same caravan. They travelled in the company of many others returning to Nazareth and nearby towns, the boys and young men probably walking together in groups, and the older ones by themselves, many of whom were riding mules. "I question whether there is ever a pilgrimage made from Jerusalem to the Jordan at the present day without a separation of children and parents equally prolonged." — Thompson. They spent part of one day hunting for Him in the caravan, another day in going back to Jerusalem, and on the third day they found Him in the temple, listening to the teachers and asking them questions so deep that all around were amazed at His understanding and answers.

"Son, why hast Thou thus dealt with us?" his mother questioned, adding, "Thy father and I sought Thee sorrowing." "How is it that ye sought Me?" asked Jesus, surprised that they did not know where to find Him. "Knew ye not that I must be in my Father's house?" Mary had said, "Thy father and I" meaning Joseph and herself, but Jesus spoke of His Father in heaven. His answer may indicate only a devout Jewish Boy's interest in the temple, but we see in it also the Boy's sense of His divine sonship. His parents had failed to understand His words, but Mary did not forget them—she kept all these sayings in her heart.

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

Christmas Seals This Year Are Christmas Bells

Send Them Out At This Season To Ring In Every Home

Ring out, wild bells, to the wild sky,

The flying cloud, the frosty night.

Christmas seals paid for seventeen free clinics this year in Manitoba, and more.

Ring out old shapes of foul disease,

Ring in the nobler modes of life.

In 17 clinics 2,104 "contacts" and "suspects," more than half of them children, were examined. 240 tuberculous were found, 142 for the first time, and many other disease conditions.

Ring out the grief that saps the mind

For those that here we see no more.

Manitoba needs a children's sanatorium. We have plans all ready, but—

Ring in the valiant man and free,

The larger heart, the kindlier hand.

100 Christmas Bells, on 100 Christmas Letters, into 100 Homes, All For One Dollar, For Better Health In Manitoba. Set the Christmas Bells A-Ringing.

Caruso In Death

Friends Of Famous Singer Will Change Clothing On Embalmed Body Every Three Years

His public will see an immaculate Caruso even in death.

The famous singer's friends have decided to open his casket every three years and change the clothing, keeping his remains constantly dressed in the latest fashions as long as the embalming maintains the perfect state of the body.

The plan was revealed in Paris by Tito Chipa, noted tenor.

Ever since his death, in 1921, the body of Caruso has rested in a crypt in Canessa tomb so that visitors may view it through the covering of the casket.

Requisite On the Farm. — Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

New Airplane Propeller

Development of a reversible airplane propeller, tending to prevent nosing over in landing and said to eliminate the ground loop menace, has been announced by the Richfield Oil Company. The new propeller weighs 30 pounds more than one of the standard type.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrel, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child Al adores and sail for France. Al, completely broken by the loss, disappears from Broadway and becomes a derelict. One day Grace Farrel sees him on the street, but he runs away. Grace starts a search for him, which ends in failure. But the image of Grace remains vividly in Al's mind.

CHAPTER XXIII.

Something of Al's old generous spirit toward Grace returned as he thought of her. How concerned her expression had been yesterday as she stared at him from across the street. Yet his feeling toward her was not strong enough to overcome the resistance of his desire to separate himself from the old life.

In spite of all that, however, the memory of her face remained in his mind. Perhaps it was this memory that brought him up sharply about three o'clock one morning before a house that seemed strangely familiar. Surely he knew these outside steps and that entrance. It was Blackie Joe's place.

Slowly, scarcely knowing what he was doing, Al mounted the shabby stairs toward the little gleam of light he saw at the top. Yes, he was sure of the place now; an intense longing possessed him to see the inside of the old familiar place where he had won his earliest triumphs. Only a few years had passed since those happy-go-lucky nights, but the time seemed like a century.

He stopped before the heavy, bolted door. It was a new door, much stronger than the one Al had known. The many raids of the prohibition agents had forced Blackie to take additional precautions; his place was better guarded now.

Al knocked against the panel set high in the door and presently it opened. A strange face gazed at him, and the eyes became more suspicious every moment, as their owner looked him up and down, noting his dilapidated clothes.

"Is Blackie Joe here?"

"Who wants to know?" asked the guard curtly.

"I do. I know him."

There was a pause, then: "G'wan, beat it! He's got no time for the likes of you!"

The panel closed with a slam. Al, nodding listlessly, began to descend the stairs. He shrugged his shoulders—it didn't matter.

Inside, Blackie had been standing fairly near the door. "Who wants me?" he called, after the aperture was closed.

"Oh, just some bum," said the doorman scornfully.

Blackie nodded and turned to look over his dance floor. But as he did so there was a faint stir of curiosity in his mind. A bum—well, what did the bum want?

He walked over to the door and pulled open the panel. At the foot of the stairs, clearly silhouetted against the light, he saw a familiar face.

At first Blackie did not recognize the figure at the foot of the night club stairs as Al Stone, his old singing waiter. But the familiarity of the profile was striking enough to make Blackie throw open the door and call, "Hey—you!"

At that, Al turned, so that his face was illuminated by the light at the head of the stairs. Now Blackie was sure—he came rushing down the stairs to wring Al's hand.

"Hello there, kid!" Blackie almost shouted in his delight. "We've been wondering where you were. And to think—I almost let you get away!"

Al stared into the face of his former boss, smiling faintly. It seemed as if Blackie would never relinquish that vigorous grip on his hand. A thrill of pleasure shot through Al—it was good to see someone at last who was really glad to see him, who beamed on him in the most friendly way imaginable. That hadn't happened to Al for months. He glanced away to hide his embarrassment at his shabby appearance.

Then Blackie linked his strong arm within Al's and led the young songwriter up the stairs, talking as he went.

"You know, Al, this is a big moment for us all. I want you to come in and meet the performers—some of them you know. And Grace is still with us—you remember her?"

Al nodded, but said nothing. Blackie saw he was dealing with a man who was not only bewildered, but had definitely lost his gift for carrying on in the battle of life. The arm inside Al's coat sleeve was limp.

As they stepped inside the doorman stared in amazement to see his well-dressed employer walking arm-in-arm with this bum. What on earth did it mean?

It was well on toward daylight and

only a few customers remained in the main dining-and-dancing room.

"Come back to my office," suggested Blackie. "We'll have a good talk."

But Al stopped, scanning the familiar room as if he expected to find the ghosts of his former triumphs there. His eyes took on the look of concentration that is habitual with men who try to escape the world and commune only with themselves. He forgot that Blackie was standing beside him, looking solicitously into his face. . . . Yes, there was the table where Molly and Marcus and the others sat on the night he sang "Always" to Molly. There was the old door leading to the bar. The floor show had ended, but the orchestra was playing and a few couples were dancing.

"Come," repeated Blackie, and Al followed him toward the private office.

They sat down, facing each other. "Have a cigar, have a drink?" suggested the night club owner, but Al shook his head. Then Blackie began again:

"Now, boy, I wish you'd tell me all about it. What happened to you—where have you been hiding out all these months?"

"Oh, here and there—just wandering about," Al replied noncommittally.

"Yes, I know that. But do you know that Marcus has been after you? And a couple of song publishers have been paging you all over town?"

"Yes, I know it, came the strangely passive answer. "I'm not interested in all that. I told Marcus I was through and I meant it. I really don't know why I came here tonight—just happened to look up and saw your entrance. Couldn't stay away from the old place forever, I suppose."

A hopeless feeling stole over Blackie. This was just the shell of the old Al; Blackie felt how strong that apparently listless resistance of his would be to any come-back. Nevertheless, he leaned forward and said earnestly.

"Al, you don't have to tell me how you feel—I know. It may seem strange to you, but I was knocked out once myself, in the same way, by a woman. For a while I thought there was no use living; then the day came when someone gave me a good stiff talking to. I decided to fight my way up again, and I did. I decided I wouldn't let one blow put me down for the count!"

"Blackie, the reformer," murmured Al. An expression somewhere between a smile and a sneer curved the corners of his mouth.

Blackie leaned back in his chair, hurt, but determined not to show it. In the old days Al could never have made a sardonic and bitter rejoinder like that.

"Do you still love Molly?" Blackie asked incredulously.

"No!" The sharp denial was the first show of life Al had shown. Blackie nodded in approval. Then Al seemed to think that some further explanation was needed. "She did for me and first I had to clean her out of my mind. I did that—then I tried to write. But I found I couldn't get interested. It was no use."

Just then a waiter stuck his head in the door and told Blackie a customer wanted to speak to him. Blackie rose.

"Excuse me a minute, Al. Make yourself at home—I'll be right back."

Workers Helped By Science

Ore Detector Located New Body and Furnished Work For Discharged Miners

The practical ways in which science helps working people is demonstrated again in England. A lead mine in Derbyshire had "petered out." Two young schoolmasters invented an ore detector, just about the time a hundred miners had been discharged. With the detector they located a new lead-ore body, 1,000 feet under the surface. They figured it was worth about \$250,000. The mine owners, having faith in science, put the miners back to work again, located the ore body through a tunnel and now the mine is working full blast. Politicians continually promise miracles to help working folk. Science performs the miracles.—Vancouver Sun.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Long Lived War Leaders

Four Who Bore Heavy Burdens Have Become Octogenarians

For months before his death Stresemann was a man broken in health, anxiously watched by relatives, friends and physicians, kept to a rigid diet, sent to bed early—he was an invalid, indeed, ere he had reached his fiftieth birthday. Hindenburg, on the other hand, celebrated his eighty-second birthday, which fell on the day before Stresemann died, by going on a hunting trip, which was cut short by the Minister's death.

Ten years of peace killed Gustav Stresemann; three wars—one the most terrible in history, in which he was the supreme leader on one side—have proved insufficient to lay Paul von Hindenburg low. Can it be that we have heard far too much about the terrors of war, far too little about those of peace? It would seem so—at least in so far as the longevity of war leaders is concerned.

Ten years of peace killed Gustav Stresemann; three wars—one the most terrible in history, in which he was the supreme leader on one side—have proved insufficient to lay Paul von Hindenburg low. Can it be that we have heard far too much about the terrors of war, far too little about those of peace? It would seem so—at least in so far as the longevity of war leaders is concerned.

Today, fifteen years after the outbreak of the World War, and eleven years since its close, there are four men who can proudly boast that, despite having borne heavy burdens of leadership between 1914 and 1918, they have nevertheless become octogenarians. Hindenburg is one—of the others, two are military men, Joffre and Mackensen—and the other a civilian who was at the head of his country's war-time government at a time of acute crisis—Georges Clemenceau.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as these morbid conditions permit them to. To be rid of them and spare the child suffering, use Miller's Worm Powders. They will correct the digestive irregularities by destroying the worms, conditions favorable to worms will disappear, and the child will have no more suffering from that cause.

Using Steam From Volcano

Steam issuing from fissures in the earth near the main crater of Mount Etna will be used this winter to supply the central heating plant of the volcanological observatory on the higher slopes of the mountain. Professor Gaetano Ponte, director of the Etna observatory, said.

Children's Colds

Best Treated Externally

THAT'S why modern mothers prefer Vicks—it cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways at once:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;

(2) It "draws out" the soreness like an old-fashioned poultice.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Editor and Publisher

Several complaints have been received lately from various sections of the town regarding the prowling of dogs during the night and early morning and of their howling and otherwise disturbing the peaceful slumber of our citizens. The owners of dogs are advised to keep them at home at night. If the annoyance continues and your dog is the cause, you may find that it is missing some morning; for we understand that there are some pretty fair rifle shots in the vicinity.

CANADIAN IMMIGRANTS

There has been considerable discussion in the Canadian press of late regarding the proposal of Hon. Mr. Forke to bring a large number of Mennonites to Canada and Mr. Forke has asked the provinces of Saskatchewan and Alberta to harbor these new settlers. The matter is before the provincial governments and it is doubtful when a decision will be made, but it seems that in the past the immigration authorities have been too much in a hurry in selecting the future settlers of our great and prosperous Dominion. It is

DO YOUR CHRISTMAS SHOPPING

Stocks of Christmas gifts are now making their annual debut upon store counters and, though Christmas is a month away, the opportunity to shop comes none too early for possessors of that particular and too elusive grain of wisdom which makes them early shoppers.

So much emphasis has been laid upon the unadvised of postponing the Christmas shopping until the rush hours of the last week that those who do not heed the injunction would seem to be impervious to either argument or appeal.

For years past there has been concerted effort to avoid the confusion and the congestion which makes what ought to be a season of happiness and enjoyment one to which a large proportion of every community looks forward with more or less dread. The strain upon the salespeople, upon those charged with delivery of goods, the

long hours they are compelled to work perform because of a disposition of Christmas week, have been pointed and the crushing labors they must so many persons to shop during the to again and again.

**West of the Great Lakes**

THE growth of the Bank of Montreal has closely coincided with the gradual development of Canada from a small colony to a great Dominion. In the Bank's westward advance to the Pacific Coast, one of the important links in its transcontinental chain of Branches was formed in 1878 at Winnipeg, when the Bank opened its first Branch west of the Great Lakes.

This forward step, taken seven years before railway communication was opened up between Montreal and Winnipeg, made available to the incoming population on the prairies the stabilizing co-operation of a strong, conservative and at the same time energetic financial institution.

Of the Bank's 667 Branches, 14 are in Winnipeg and 188 in the Prairie Provinces.

Montreal with Pen and Pencil

One of the oldest, most picturesque and historic cities on this continent—the city of Montreal—has found a worthy biography in the work of Victor Morin and the wellknown Canadian Academician Charles W. Simpson, who have between them produced, under the auspices of the Canadian Pacific Railway, a description in words and drawings bearing the above title. Written originally in French it has been rendered into English in a

translation that conserves the original verve and atmosphere of the book. In forty pages of clear and readable type with fifteen full page reproductions of pictures that are in themselves works of art, the story of the city is told for the past three hundred years. Lay-out shows two contrasted and typical scenes: the famous church of Notre Dame, second largest on the continent; and Bonsecours market that resembles a scene taken from a city of Normandy.

Snicklefritz -----

the Golden Gates of heaven and loudly demanded admittance.

"Sorry, but I can't let you in," said St. Peter. "I have no instructions and the score keeper has gone to bed so you'll have to wait until I look up your record."

When he returned a few minutes later the two gentlemen from Chicago were gone.

And so were the Golden Gates.

Friendly Bootlegger: "Looks like rain."

Collegiate: "Yes, but it tastes like yeast."

Passenger: "Have I time to say good-bye to my wife?"

Conductor: "I don't know sir. How long have you been married?"

Late one night just as St. Peter was preparing to knock off for the day, two gentlemen from Chicago knocked on any more. What's become of him?"

I never see you running with Jones

"I don't know and don't care. We were close friends all right until I took him home to dinner one night. When I presented him to my wife he turned and said: "Why, Jack, I thought you said that lady you met in Washington last week was your wife."

• * * *

"Dan, I played poker last night."

"Listen here son—"

"I won \$86."

"Put your hard-earned money in the bank, son."

• * * *

An Old Country newspaper tells of a young woman who fasted for forty-eight days, a feat that brought her no less than one hundred and forty-nine proposals of marriage from eligible young men of Aberdeen.

A parsimonious old Highland nobleman was at a large party. It was customary for the guests to tip the servants who were lined up in a hall for this purpose.

The gifts of those who presided the old laird were received gravely, not calling forth smiles or even thanks; but when the old man passed, the faces of the servants brightened up considerably.

"What did you give them, Robbie?" asked a friend. "They looked as sour as vinegar till your turn came."

"Dell a hawbee did they get frae me," answered the laird. "I just tickled their palms."

• * * *

An attorney recently received an amusing, if cynical letter from an educated Indian client, who desired him to collect a debt.

After two pages of meticulously correct English the letter concluded "If you cannot collect the debt by fair means, try legal proceedings."

FATTENING TURKEYS

Christmas dinner tables will not lack for turkeys, judging by reports from different parts of the province. Turkeys raised in the open during the summer cannot stand close confinement during the fattening period and should therefore not be confined to pens. Confinement often results in the birds going off their feed and developing digestive troubles, sometimes in death. The proper time to commence fattening is four weeks before they are wanted for table use, which is usually in November and December. The young birds should be started feeding gradually. The feed should be composed of both mashes and whole grain, the mashes in the morning and at midday and the whole grain at night. The mash is made up of equal parts of ground oats, barley meal, corn meal and wheat bran and should be fed in a moist condition from clean V-shaped troughs. Whole corn is the best grain for fattening purposes and should be used for the evening meal. Never give more than they will readily eat. Turkeys thrive best in the open and even in the fattening period should be allowed to roost outside with protection, of course, from cold winds and rain.

"SALADA" TEA

'Fresh from the gardens'

Solving Canada's Economic Problems

A country possessed of the vast extent and great variety of natural resources which stretch east and west across Canada from sea to sea, and north and south from the international boundary line to the Pole, has a responsibility not only to its own people but to the world at large. The heritage with which nature has endowed the Canadian people is one of the richest, if indeed not the richest, on this globe. It consists of some of the greatest fisheries in the world, the greatest forests, the greatest waterpowers, tens of millions of acres of the most fertile agricultural lands, while hidden below the surface and in the rocks lies what is now being recognized as probably the world's greatest store of mineral wealth,—coal, iron, nickel, gold, silver, copper, zinc, tin, asbestos, and scores of other minerals required for the use of mankind.

Safe, and except some of the more precious stones, and those things which are alone the product of tropical countries, Canada enjoys possession of practically everything needed to build up and maintain the great industries of this and future ages. Possession of such a storehouse of wealth imposes a great responsibility on this Dominion, but it also presents a great opportunity.

How are the Canadian people developing these enormous reservoirs of potential wealth? What are they doing with them? While the country was still young, sparsely settled, and the people comparatively poor, the trees of the forests were cut down and shipped abroad as logs, rough sawn lumber and pulpwood. But now Canada is the largest paper manufacturing country in the world, and the producer of much fine furniture.

For years Canada's great tonnage of nickel, copper and zinc ores was shipped to other lands to be refined and manufactured for use in industry; now huge refineries are being established in which these ores will be processed at home. While, owing to its enormous grain production, Canada is and will long continue to be a big exporter of wheat, this country has forced rapidly ahead in the industry of milling, sending the finest flour in ever increasing quantities into the markets of the world.

A similar story can be told of the development and use being made of other of our natural resources. There is this, however, to consider. Some of Canada's mineral wealth is of low grade, and much of its value results from the fact of its enormous quantity, as, for example, the lignite coal of the west. So, too, the large iron deposits of Ontario are difficult and expensive to work for commercial use. But are we, for these reasons, to neglect them and abandon the wealth they might bring to Canada, and lose the benefits which rightly developed they would confer upon the Dominion?

These very difficulties are a challenge to the people of Canada. They are a test as to our fitness to be entrusted with the heritage which is ours.

Up to the present time Canada has devoted too little attention to, and been too niggardly in its public expenditures, upon scientific research. Rather, as a people, we have been inclined to take the easier way and seek to protect our interests by artificial means, or been content to accept minor profits from the sale of raw products, rather than through scientific research and experimental expenditures find solutions to our problems and greater wealth for our country. Perhaps this was natural, even inevitable, in a young country. But that day is passed if Canada is to be true to itself.

The Dominion Government, the Ontario Government, several huge corporations, universities, and private individuals of wealth, are, in the aggregate, providing millions for research work; the most modern buildings and laboratories and the finest equipment are being provided. Already important results have been achieved. It is confidently believed that a type of rust resistant wheat has been developed, while the National Research Council has demonstrated where science is greater than tariffs and trade commissioners when it comes to developing trade. An Ottawa despatch tells how it has re-established Canadian magnesite on the markets of the world.

Magnesite is used in furnaces or other places where great heat is required. It came originally from Austria, but the war gave Canada a chance and deposits in Quebec were developed. After the war Austria came back, deposits were found in California, and the United States tariff shut Canada out of that market. Canada lost the business. The owners of the Quebec mines appealed to Ottawa, and the Government, declining to impose tariff protection, turned the problem over to the National Research Council. The scientists of the Council developed new production methods and today Canadian magnesite has not only got its markets back but is beating the California product in the United States, where it commands a higher price now because of its better quality.

A similar story can be told about a Saskatchewan clay-working plant. It was steadily losing money. Then the Saskatchewan Government stepped in, and Professor Worcester, of the University of Saskatchewan, was assigned to the problem. He discovered a proper mixture of clays, with the result that the plant in question is now making money, has enlarged its buildings and added to its equipment, and is today supplying a large proportion of certain types of fire brick and locomotive arch tiles used in Western Canada but which formerly had to be imported from the United States.

Scientific research has great things in store for a country like Canada. It costs time and money to prosecute it intensively, but it will repay in hundredfold. The Canadian people should not regard it as a hobby, or a fad, but a sound business proposition, and be prepared to support their Government and scientific bodies in largely extending the scope of such research.

Normal Period Of Married Life

Insurance Statisticians Have Worked Out Scale

Insurance statisticians, after months of research, have worked out to one decimal point the period which newly

married couples may expect to live together—leaving out the possibility of divorce, fast becoming a major factor.

It was announced recently that a man of 33 and a woman of 30 may expect to live together 27.3 years before death, in the normal course, separates them.

A woman's expectation of life at 30 is 38.3 years; that of a man at 35 is 33.4 years. This typical couple in 53.6 per cent. of cases, it is asserted, will live beyond the 27.3 average before one of them dies; in 7 per cent. of cases, both will be dead before that time; in 15.6 the wife will have died, and in 23.6 the husband will have died.

Editor—"There's only one thing keeps this from being a rattling good yarn."

Eager Author—"What's that?"

Editor—"It isn't."

Western Canada Fisheries

Opening Of H.B. Road Will Extend Fishing Grounds In the North

With the opening of the Hudson Bay Railways next year, new areas will be opened up in Northern Manitoba and Saskatchewan not only rich in minerals but in fish. There are numerous lakes and waterways adjacent to the new railway which will enable commercial fishing operations to be extended. Millions of pounds of fish are caught in the large inland lakes in Western Canada, much of which is shipped to Chicago and New York, as well as to markets in Canada. The principal fish in these lakes are whitefish, sturgeon, trout, pickerel and tuladi.

RADIANT GIRLHOOD

Comes Through Rich, Red Health-Giving Blood

A girl with a full-blooded body and vital nerves has the foundation of an active, healthy life. Allow her to grow wan and delicate and prolonged ill-health and general weakness may be the result. Many women who ought to be in the very prime of life are too frequently sufferers of headaches, back and side aches, easily tired and breathless, because of anaemia which stealthily attacked them in girlhood.

But fortunately there is a remedy within easy reach. Thousands of tired, worn-out women and delicate girls who have sought the self-help of Dr. Williams' Pink Pills are grateful for the way in which these pills have restored them to robust fitness. This effective tonic and nerve restorer always helps to make plenty of rich, red blood that speedily puts an end to anaemia. A wan, delicate girl, or tired, weary woman soon becomes brighter when this new blood courses through the system. Color comes to her cheeks and lips; her appetite increases; her nerves are steadied, and the following is an example, from her becomes vital and active again, among thousands, of what these pills have done and can do: Miss C. J. Martin, Kitchener, Ont., says: "For several years I was greatly distressed with pains in the back and sick headaches. I felt tired all the time, did not sleep well and had a poor appetite. I had been doctoring, but did not get much relief. My sister advised me to try Dr. Williams' Pink Pills and after taking six boxes I felt like a new person, and will not be without the pills again."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Navigation At Churchill

Port Open To Ocean Vessels Till Late In November

Ocean vessels would have no difficulty in using the port of Churchill until the latter part of November, according to J. U. Beauchemin, head of the party doing hydrographic survey work at Fort Churchill harbor and on Hudson Bay. There would doubtless be a little shore ice in the harbor in November, but he says that there would be no danger of a vessel becoming ice bound until late in the month.

Mr. Beauchemin and his party have just returned to Sydney from the Hudson Bay. It is not clear from his interview that he was including in his statement any reference to Hudson Strait. But he does contradict the report brought down from Hudson Strait by the airmen on the Untin Bowler, which was wrecked up there, that the government steamer Acadia, which carried the hydrographic survey, was stuck in the ice for seven days. The vessel remained in the ice only for 30 hours, he says, and it did so purposefully for the study of ice conditions, while it could have moved out of the ice field at any time.

It is easy to exaggerate the difficulties of the northern route. There are some difficulties and the best modern methods of meeting them will be used. If, as is quite possible, the Hudson Strait is navigable well into November, then this route will be in quite as good a position to handle the western grain crop in the fall of the year as is the route by the Great Lakes. The port of Montreal usually closes before the end of November and it takes the grain much longer to get to Montreal than to Churchill.

Traffic on the Hudson Bay route will begin in a modest way and with the overcoming of the various difficulties a great expansion of traffic and a great future for the route may be expected.—Free Press.

Use Minard's Liniment in the Stables.

Chilblains & Frost-Bite

As a remedy for those most troublesome of Winter skin afflictions, chilblains and "frost-bites," Zam-Buk is speedily effective. It takes out inflammation and reduces swelling in a wonderful way and soothes the fiery tingling irritation. Where the chilblains are broken and have a raw ulcerated surface, Zam-Buk is doubly valuable because of its great healing power. Its pain-killing efficiency and its fine antiseptic properties place Zam-Buk far above ordinary ointments.

Zam-Buk
Soothes & Heals

Flying Interests Royalty

Prince and His Brothers Are Keen About Aviation

The fact that the Prince of Wales has appointed a regular air pilot among his retinue draws renewed attention to the remarkable keenness shown by the Prince for flying. It is some years since he went for his first flight, but ever since that memorable occasion he has exhibited extreme air-mindedness.

Such attention has been given to the air pilots of the Prince of Wales, however, that most people are unaware that one of his brothers has long been a fully-fledged pilot. The Duke of York is a group captain in the Royal Air Force, and, as such, understands the entire control of an aeroplane. He is also air aide-de-camp to his father, the King, says a writer in "The Daily Express," London, England.

The Duke of Gloucester made his first flight recently, while Prince George has flown on several occasions, although not in a small machine. He has made two cross-Channel trips in an Imperial Airways liner, travelling incognito and accompanied by an equerry.

With all his sons "in the air," the King may yet consider taking a trip himself, but, one feels sure, there will always have to be a satisfactory settlement of two matters before this can take place. First, without a doubt he will be accompanied by the Queen, and second, he will fly only if his subjects are absolutely certain of the safety of the flight.

The weasel is a pure killer, destroying more animals than it can consume.

All over Canada farmers are coming to realize the great value of the birds to agriculture.

Prospecting In the West

Large Number Of Claims Staked and Recorded During Past Year

Some idea of the amount of prospecting being done in Manitoba and northern Saskatchewan may be obtained from the number of claims staked and recorded during the past year. In 1928 there were 7,335 mineral claims recorded in The Pas mining district, 1,400 in the Cold Lake district, and 2,118 in the Winnipeg district. There are at present over 20,000 mineral claims recorded in Manitoba and northern Saskatchewan.

Pains Around Heart Weak Spells Would Fall Over

Mrs. James Vanalstine, Elbowoods, writes:—"I had pains around my heart, and suffered with weak, smothering spells. Sometimes I would fall over and would have to be picked up and put to bed.

"I used several boxes of

**MILBURN'S
HEART
AND
NERVE PILLS**

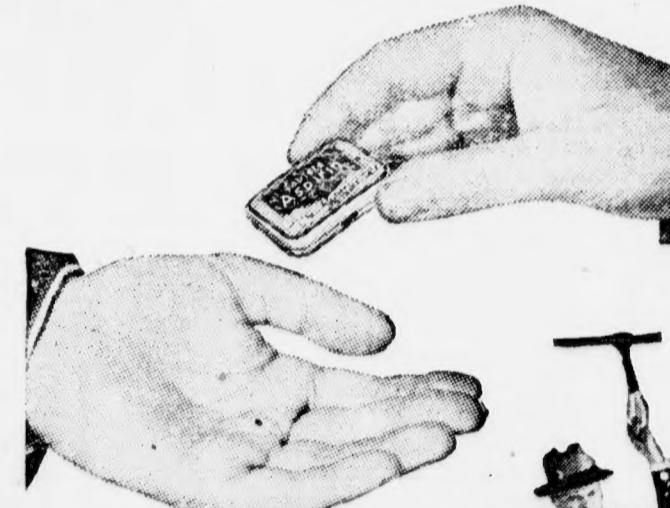

and it is now over three years since I have had a spell.

"I hope anyone who is in the same condition I was will give H. & N. Pills a fair trial."

Price, 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

"Haven't we met before?"
"Well, you seem familiar."

The pole star is always directly over the North Pole.

Needless Pain!

Don't be a martyr to unnecessary pain.

Lots of suffering is, indeed, quite needless.

Headaches, for example. They come without warning, but one can always be prepared. Aspirin tablets bring prompt relief. Keep a bottle of them at the office. Carry the small tin in your pocket. Then you won't have to hunt a druggist, or wait till you get home.

And do not think that Aspirin is only good for headaches, sore throats, and colds! Read the proven directions for relieving neuralgic, neuritic, rheumatic, and other aches and pains. Remembering, of course, that the quick comfort from these tablets is not a cure; for any continued pain, see a doctor.

Purchase genuine Aspirin. Protect yourself by looking for that name. Always the same. Always safe. Never hurts the heart.

PROBLEM FOR LEAGUE CREATED BY MENNONITES

Ottawa, Ont.—Cable advices received from Geneva, Berlin and Warsaw indicate clearly that the exodus of refugee Mennonites from the Soviet republic rapidly is assuming greater proportions and that while there has been no suggestion that Canada should consider taking more than 6,000 of them, the number that will have to find new homes somewhere in the world may reach the staggering total of 100,000 persons.

The 5,000 Mennonites who gathered in the environs of Warsaw a few weeks ago and concerning whom the Canadian government was approached by the German foreign office, appear now to have been but the advance guard of a constantly swelling stream of Mennonites. It is claimed that the entire Mennonite population of Russia, which has been increasing steadily for 150 years since the great Queen Katherine offered the sect sanctuary from religious persecution, will leave the republic. Within a few months upwards of 100,000 Mennonite refugees will have left Russia and will be facing starvation unless rescued by the League of Nations or the governments of Europe.

Hon. F. Nansen, the head of the refugee commission of the League of Nations, has communicated by cable with the Canadian government. He has stated that the League will intervene in aid of the homeless Mennonites and he is confident that food and shelter can be provided in Europe and at the expense of the League until next spring.

This appears to remove any immediate danger of these people dying of exposure or starvation.

From what can be learned here, the Mennonites are not leaving Russia because of religious persecution, but because they claim that they have been reduced from a wealthy and thriving community to starvation by the exactions of the Soviet government. Their accumulated savings in money have been confiscated and their crops, each year, have been taken from them. They claim that there was no alternative except to stay in Russia and starve or to throw themselves upon the mercy of Europe, and hope for assistance to establish homes for themselves in the western world.

As far as the immigration department here is concerned, the answer of Premier Anderson to Bishop Toews is taken as being opposed to the movement of any Mennonites into Saskatchewan other than relatives of those in the province. Negotiations are under way with Manitoba and Alberta. Unless these provinces are willing to accept the Mennonites, the Dominion will decline to permit them to come.

It is felt that the League of Nations will carry the refugees over until spring and that there is plenty of time to consider very carefully the question of policy involved in bringing them to Canada.

Ocean Cables Broken

Several Connections Between America and Europe Severed By Earthquake

New York.—Six cable repair ships were groping the bed of the North Atlantic off the coast of Nova Scotia for cables broken by the recent earthquake along the seaboard.

Ten or more of the connections between America and Europe were severed by the upheaval among the hills and valleys of the ocean's floor.

Ask For British Control

Apia, British Samoa.—A petition requesting the King of England to take the control of Samoa from New Zealand, and to give it directly to England, was lodged with the administrator here for transmission. The petition was signed by 23 chiefs in behalf of the "Mau" organization of natives, which represents about 95 per cent of the Samoans.

Logging In B.C. Curtailed

Victoria.—Drastic curtailment of logging operations is being effected at most Vancouver Island camps, in concert with the reduced activity general throughout Oregon, Washington, and British Columbia.

Makes Definite Change Against Communists

Cause Of Unrest In Africa Says Minister Of Justice

Pretoria, South Africa.—The definite charge that the activities of the Communist Internationale are behind the widespread unrest among natives in the Union of South Africa was made in the course of a long address by Hon. Oswald Pirow, Minister of Justice.

Numerous organizations, close-allied with or at least in close touch with the Third Internationale, are responsible, the minister stated, for fanning the unrest which came to a head at Durban recently, when the government was forced to raid the native compounds and arrest 600 out of 5,000 natives who had refused to pay the poll taxes.

The minister also declared that unless the danger was checked strongly by the police, rioting on a large scale would be suffered within 12 to 18 months time.

Royal College Of Physicians

Sixty Leading Figures In Canadian Medicine Meet At Ottawa

Ottawa.—The Royal Canadian College of Physicians and Surgeons came into being when 60 leading figures in Canadian medicine met here. The royal college was provided for at the last session of parliament, and has as its purpose the foundation of a standard of specialization in the medical profession. Toronto was chosen as the headquarters of the college.

Officers were elected as follows:

President, Dr. John C. Meakins, Montreal; vice-presidents, Dr. F. N. G. Starr and Dr. Duncan Graham, both of Toronto; registrar-secretary, Dr. T. C. Routley, Toronto.

The original charter fellows as designated in the act of parliament establishing the college comprise university professors in medicine in the nine medical schools in Canada. About 60 of these were present and were sworn in.

Heavy Air Mail

Thousands Of Letters Are Awaiting Opening Of Northern Service

Edmonton.—One hundred thousand letters are at the central post office in readiness for the opening of air mail service to the north country, it was estimated by F. X. J. Leger, superintendent of the Edmonton postal division, a few days ago. The peak has not been reached yet as more first flight letters are being received here daily.

Three machines will in all likelihood be required for opening this service. Two of these would be extra aeroplanes for handling the large volume of letters sent here by first flight cover collectors.

Nothing definite has been settled as yet in regard to the date of opening the northern service, as this will start just as soon as there is sufficient ice on the rivers for the machines to land on skids.

Wolves Invade Moscow

London, England.—An invasion of hordes of wolves in the crowded suburbs of Moscow was described in a Daily News despatch from the Soviet capital. The despatch said that the wolves had attacked adults and children and had devoured two small children. Moscow's suburbs recently have been overcrowded with peasants who have set up temporary homes while awaiting permission to migrate to Canada.

Sale Of Coal Discussed

London, England.—Right Hon. J. H. Thomas informed the House of Commons that he had had a number of further consultations with coal and shipping interests concerned in the increased sale of British coal in Canada. These had raised a number of questions which would require careful consideration and consequently he could make no further statement at present.

Occupy British Barracks

Wiesbaden, Germany.—A battalion of French infantry has arrived here and taken over the barracks recently occupied by the British troops of occupation. Despite statements to the contrary, some quarters believed that the French intend to send detachments of troops to various places in Britain's former area of occupation.

FLASHES GLAD TIDINGS

Ross Smyth, 22-year-old student of McGill University, Montreal, who is the wireless operator on the Fort James, who flashed back to civilization the news that the missing MacAlpine party was safe.

Over Three Millions Disbursed In Pensions

Latest Figures Show Canada Has 18,394 Old Age Pensioners

Ottawa.—On September 30, the last date for which figures are available, there was 18,394 old age pensioners in Canada, made up of 7,428 males and 5,866 females. Since the inception of the old age pension the sum of \$3,389,089 had been disbursed, the federal and provincial governments sharing equally in this distribution.

British Columbia, the first province to come within the operation of the act, had 4,214 pensioners and had dispensed \$1,520,652 in pensions. Manitoba \$801,156; Alberta, whose provincial enabling act became operative on August 1, \$14,516. The Northwest Territories, which is exclusively a federal scheme, had one male pensioner who drew \$51.63.

No payments have yet been made on account of the province of Ontario.

Alberta Election Rumor

Premier Brownlee Says Question Of Election Next Year Has Not Been Discussed

Edmonton.—Asked about the probability of the Alberta general elections being held in June of next year, as rumored in Calgary, Premier Brownlee replied that "It's nice to have matters of this sort decided for the government without its having to deal with them at all."

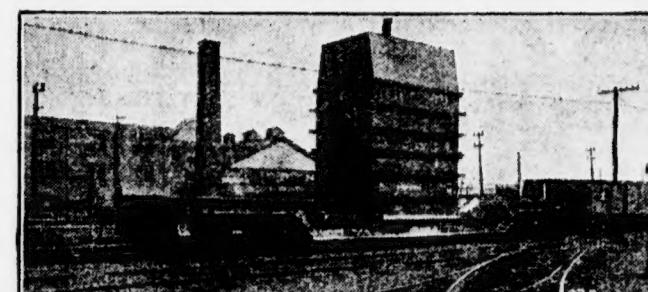

The premier had no further comment to make, except to say that the question has not yet been discussed by the government in any way.

The farmer government in Alberta if it rides out its full term, need not go to the polls again until 1931, but Calgary rumor has it that it will do so next year.

Would Retain Plant

Moose Jaw, Sask.—Recommendation that the Moose Jaw power plant be retained as a municipally-owned utility and opposition to its proposed sale to private interests, was voiced in the report to the Trades and Labor Council by a special committee. The report was adopted.

To Aid in Industrial Development

The rapid development in power projects and other engineering works at widely separated points throughout the country has created a demand for rolling stock capable of handling unusually heavy and bulky shipments such as transformers, rotors, etc.

In order to take care of business of this kind, the Canadian Pacific Railway recently put into service two depressed center all steel flat cars which were designed by the Mechanical Department and built at the Angus Shops.

These cars are 53 feet 9 inches long inside the coupler knuckles. The center portion is depressed so that the height from the rail to the top of the deck is 2 feet 4 inches, and the portion which is available for loading is 22 feet 7 inches long.

The weight is 89,700 lbs., and they will carry a load of 225,300 lbs. Six wheel trucks with rolled steel wheels are used.

Good Market For Wheat

Britain Will Purchase Grain Stored In Canada Says Expert

Toronto.—"In light of my experience in England and from reports I have received concerning the wheat supply in other countries, I see no reason why the millions of bushels of Canadian wheat at present in storage should not be sold at satisfactory prices before next year's yield," said W. A. Wilson, Canadian agricultural representative in London, England, upon his arrival here from the Old Country.

With an intimate knowledge of the wheat situation, Mr. Wilson did not hesitate to say that in his opinion the time had come when Canadian wheat, at present filling the giant elevators at different points throughout the West would move toward the great British market.

The Canadian agricultural representative declared that statistics he had been able to gather on the wheat supply throughout the world all pointed toward big purchases of Canadian wheat before the 1930 crop.

Earthquake Shakes Liner

Vessel, 640 Miles Out At Sea, Receives Vibrations From Shore

New York.—The earthquake which was felt along the coast from New York to Halifax, recently, also shook the liner "Olympic," 640 miles out at sea, from stem to stern, her commander reported on arrival here from Southampton and Cherbourg.

It provided an alarming experience for the officers of the Olympic, for they did not know what had happened.

They were afraid she had hit a submerged wreck and perhaps damaged her hull.

The vibration was so severe, he said, that it shook out the electric lights in the mail room. Stewards and passengers rushed to the promenade deck to find out what had happened.

British Cadets Coming

Will Attend Annual Meet In 1930 Of Canada Rifle Association

Ottawa.—Cadet contingents from Great Britain will attend the annual shoots in 1930 of the Dominion of Canada Rifle Association and the Ontario Rifle Association. It was announced in a letter received by the Department of National Defence from Surgeon-Captain R. J. E. Hanson, honorary organizer of the Imperial Cadet Association.

The contingent of 19 cadets will be headed by Major J. M. West, Shrewsbury Officers' Training Corps, as honorary commandant.

Two Noted Authors III

Conan Doyle and Kipling Unable To Fill Engagements

London, England.—Two of Great Britain's best known authors—Rudyard Kipling and Sir Arthur Conan Doyle—are in poor health.

The British Broadcast Corporation announced Kipling had cancelled a proposed radio speech December 12, because he had been ordered abroad for his health.

Sir Arthur, driven abed by over-work at his home at Crowborough, in Sussex, has cancelled all engagements for the next few months.

PREPARE PLANS FOR 1932 GRAIN SHOW AT REGINA

Toronto.—Laying their plans for the future, when the world's grain exhibition and conference will be held in Regina, Sask., July 25 to August 6, 1932, the executive and finance committee met here recently.

Under the chairmanship of Hon. W. C. Buckle, Minister of Agriculture for Saskatchewan, the committee held a brief general discussion and announced several appointments of committee chairman and others who will aid in carrying out the extensive program. The grain conference, the first of its kind undertaken by Canada, bids fair to eclipse any similar undertaking of an international character.

Announcement was made recently that the appointment of judges for the exhibition will be along international lines.

The total prize list, official announcement of which will shortly be made, provides for all classes, an amount of \$201,500. Of this amount \$15,000 will be allotted to the hard spring wheat class alone, with \$2,500 the first place award.

Appointment was made recently of Dr. J. H. Grisdale, deputy minister of agriculture for Canada, as chairman of the conference program. Dr. Grisdale will name his own committee, which will attend to the securing of speakers, who will present papers at the conference.

F. H. Auld, deputy minister of agriculture for Saskatchewan, was appointed chairman of the exhibits committee, and L. H. Newman, Dominion cerealist, was named chairman of the awards committee.

Ernest Rhoades, B.S.A., of the Dominion Department of Agriculture, secretary of the 1927 world's poultry congress, was appointed secretary. The position during the earlier organization was held by D. T. Elderkin, manager of the exhibition, who now becomes a member of the executive.

S. Latta, former Minister of Education for Saskatchewan, was named publicity director.

His Excellency, Lord Willingdon, Governor-General of Canada, has consented to act as chief patron.

The personnel of the executive and finance committee is: Hon. W. C. Buckle, Minister of Agriculture for Saskatchewan, chairman; Hon. W. R. Motherwell, Dominion Minister of Agriculture; Hon. A. Prefontaine, Minister of Agriculture for Manitoba; C. H. Hamilton, Dominion Grain Commissioner and former Minister of Agriculture for Saskatchewan; Dr. J. H. Grisdale, Deputy Minister of Agriculture for Canada; F. H. Auld, Deputy Minister of Agriculture for Saskatchewan; A. E. Whitmore, Regina; D. T. Elderkin, Regina; W. Yule, Regina; J. A. Mooney, Regina, and Ernest Rhoades, secretary.

Would Shorten Working Hours

Winnipeg.—The Dominion was requested in a resolution sent by Mayor Dan McLean, to take under consideration a plan to shorten the hours of working men in Canada. Details of the plan or to what extent the working day should be cut were not divulged. It is aimed to give employment to hundreds of men now out of work throughout the country. Mayor McLean said.

Rob Quebec Bank

Montreal.—Three armed and masked men walked into the office of the Canadian Bank of Commerce at St. Chrysostome, Que., about 30 miles from Montreal, tied the manager and cashier to chairs and escaped with cash estimated at \$500. The bandits, who had prepared their way by cutting telephone wires, drove off in an automobile.

Wants Official Delegates

London, England.—The British government despatched communications to Italy, France and Japan urging that those governments be represented at the five-power naval conference by civilian ministers rather than delegates chosen from the armed services.

Royal Wedding Gift

Rome.—The wedding gift of King Victor Emmanuel to Prince Humbert and Princess Marie Jose, of Belgium, will be the Chateau of Racconigi, in Piedmont, birthplace of the Crown Prince.

HOCKEY CLUB FORMED HERE

(Continued from front page)

J. Rouleau filled the position. At the previous meeting it was decided to form a hockey team in Carbon this winter and at this meeting it was specified that this would be an intermediate team. The secretary was instructed to get in touch with the towns of Rockyford, Drumheller, Acme, Three Hills, Swalwell and Irricana and see if they would not put an intermediate hockey team on the ice and play in proposed league if one can be formed.

It was proposed at this meeting to form a local league comprising three or possibly four teams and to play schedule games every week and three local men were elected to manage the three teams and if four teams are arranged another manager will be elected later. The three men named for managers were: Messrs. Len Poxon, Roy Wacker and Stan Carney.

The following committee was elected to outline a list of the proposed hockey players in Carbon and district and these players will be chosen on the local teams: Leo Halstead, E. J. Rouleau, Stewart Hay, Jack Spence and Sam Leiske.

There being no further business the meeting was adjourned and another meeting will be held next Sunday, December 1, at 2 p.m. in the Elk hall. All those who wish to play hockey this year will help considerably by handing in their name to any one of the above committee before this date.

HON. C. A. DUNNING MAC BE NEW MINISTER OF FINANCE

The appointment of Hon. C. A. Dunning as minister of finance will probably be announced by Prime Minister Mackenzie King within the next few days. The appointment of a man to succeed Mr. Dunning as minister of railways may be left in abeyance for some time. Although neither Mr. King nor Mr. Dunning had any statement to make on their return to Ottawa recently, it is understood from other sources that a decision has been reached to make Mr. Dunning head of the finances of the Dominion to succeed the late Hon. J. A. Robb, who passed away a couple of weeks ago.

Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

FOR SALE BY TENDER

Valuable Grain Farm

We offer for sale by tender 160 acres more or less of farm land, being the North East Quarter of Section Thirty (30), Township Twenty-nine (29), Range Twenty-two (22), West of the fourth Meridian, being four miles North East of Carbon.

TENDERS should be sealed, addressed to us and marked: "R. B. COX FARM," and should be in our possession by November 30th, 1929, at noon.

Each tender must be accompanied by a marked cheque to our order for 5 per cent of the tender.

The tenderer should state the proposed term of payment.

Cheques received with tenders will be promptly returned after November 30th to unsuccessful tenderers.

The highest or any tender not necessarily accepted.

The improvements are said to be 150 acres of cultivated land, of which there are about 50 acres under summerfallow; a house 13 X 24 and addition 10 X 24; Barn 18 X 28; hen house. All fenced.
